

Are you looking after
your Lone Workers?

ArcAngel – Lone Worker

As an employer, you have a duty of care to establish a safe and healthy working environment for your lone worker employees. ArcAngel can play a vital role in reducing these risks and increasing personal safety.

At the press of a button, the ArcAngel is connected to our award winning ARC (Alarm Receiving Centre) where our fully trained operators can hear, assess and record whatever situation is developing and action an appropriate response.

The employer and employee can also keep in touch with each other, via the ArcAngel, without the need for a separate mobile phone.

Features:

- Easy to use, single button emergency call
- Small, lightweight and discreet
- Accurate GPS location
- Battery life of standby up to ten (10) days
- Geo-fencing function available
- Choice of a range of mobile networks
- Choice of colours and a range of accessories

ArcAngel - Monitoring

Our ArcAngel devices are monitored 24 hours a day, 365 days per year by a dedicated team of professionals. The Alarm Receiving Centre (ARC) is NSI Gold Accredited and we have monitored thousands of lone worker devices for more than 20 years across a range of industries and sectors.

Whenever an ArcAngel device is activated, the ARC operative will immediately know who the user is, their exact location and will action the agreed procedure to ensure the safety and wellbeing of the lone worker.

ArcAngel is ideal for the following

- Agricultural workers
- Utility workers
- Cleaners
- Victims of domestic abuse
- Construction workers
- Vulnerable clients
- Drivers
- Healthcare professionals
- Estate agents
- Security guards
- Retail employees
- Site managers
- Social care personnel
